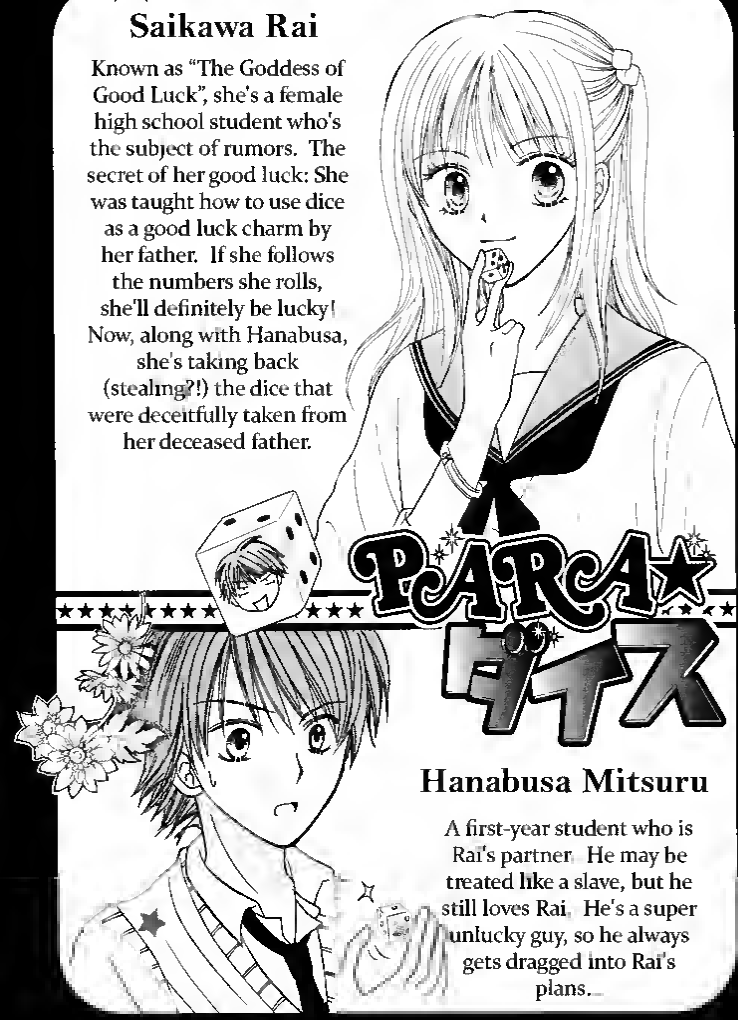
Part 1 "The Goddess of Good Luck Appears!!"

Main Character Introductions

Saikawa Rai

Known as "The Goddess of Good Luck", she's a female high school student who's the subject of rumors. The secret of her good luck: She was taught how to use dice as a good luck charm by her father. If she follows the numbers she rolls, she'll definitely be lucky! Now, along with Hanabusa, she's taking back (stealing?!) the dice that were deceitfully taken from her deceased father.



Hanabusa Mitsuru

A first-year student who is Rai's partner. He may be treated like a slave, but he still loves Rai. He's a super unlucky guy, so he always gets dragged into Rai's plans.

The numbers on the dice represent six paths
